

POOJA KAILASH PANSARE

AI Engineer · Generative AI · Agentic AI · Intelligent Automation

Pune, India | poojapansare1810@gmail.com | [linkedin.com/in/poojapansare1810](https://www.linkedin.com/in/poojapansare1810) | github.com/poojapansare18
Open to international relocation (UAE and worldwide) · Employer sponsorship required

PROFESSIONAL SUMMARY

AI Engineer with nearly 2 years of experience building Generative AI, Agentic AI and intelligent automation solutions for enterprise clients. Delivered **10+ AI and automation POCs across 5+ client engagements**, including RAG-based data assistants, agentic workflows, API-integrated automation and conversational AI applications. Hands-on with Python, FastAPI, LLM orchestration, RAG, Flowise, LlamaIndex, REST APIs, React and PostgreSQL, with measurable outcomes: **50% faster information retrieval, 60% less manual effort and ~95% fewer processing errors.**

CORE TECHNICAL SKILLS

AI / GenAI	LLMs, Generative AI, RAG, Prompt Engineering, Embeddings, Semantic Search, Conversational AI, AI Evaluation
Agentic AI	AI Agents, Agentic Workflows, Tool / Function Calling, LLM Orchestration, Prompt Chaining, LangChain, LlamaIndex, Flowise
Engineering	Python, FastAPI, REST APIs, JavaScript, ReactJS, Next.js, SQL, PostgreSQL, JSON
Automation	n8n, RPA, Workflow Automation, Process Automation, Joget, Third-Party Integrations
Cloud / DevOps	AWS, Azure, Azure OpenAI Service, Docker, Git, GitHub, Linux
Testing	Postman, JMeter, API Testing, Functional / Integration / Performance Testing, POC Validation

PROFESSIONAL EXPERIENCE

Software Developer – AI & RPA | Skymeric Technologies Pvt. Ltd.

Jan 2024 – Oct 2025

Pune, India | Agentic AI & RPA product company | HPE ISV Partner | NVIDIA Inception Partner

- **Delivered 10+ enterprise AI and automation POCs** across 5+ clients, owning requirement analysis, solution design, development, validation and demos; achieved a 20% POC-to-deal conversion rate and contributed to 2 major contracts.
- **Built Generative AI data assistants** with Flowise, LlamaIndex and SQL-Llama for natural-language querying across PDF, Excel, Word and CSV sources, cutting information retrieval time by 50%.
- **Designed and delivered 5+ Agentic AI workflows** combining LLM orchestration, API calls, conversational interfaces and ReactJS dashboards.
- **Developed an HR Policy Approval application** using Joget, ReactJS and a GenAI-powered Q&A assistant, pairing conversational policy access with structured approval workflows.
- **Automated Tally ERP invoice processing and ledger reconciliation** for 1,000+ daily transactions, achieving a 60% reduction in manual work and ~95% fewer processing errors.
- **Built RPA workflows** integrating REST APIs and systems such as Twilio, Amazon S3, Zerodha and Tally, reducing manual operational effort by 35%.
- **Validated solutions** with Postman and JMeter (API, functional, integration and performance testing); led on-site technical consulting and demos for industrial AI / vision use cases.
- **Represented the company at 5 major technology events**, engaging 200+ enterprise stakeholders. **Awards:** 2× Star Performer of the Month; Client Appreciation Award – POC Excellence.

SELECTED AI PROJECTS

Persynta – AI Personal Follow-Through Platform

Independent Project

Agentic AI | Conversational AI | LLMs | STT / TTS | Telephony APIs | REST APIs | PostgreSQL

- Designed and built a real-time AI voice platform that turns user intentions into scheduled, conversational follow-through actions via a dedicated "Digital Friend" phone number.
- Built a stateful agent workflow for reminders, tasks, rescheduling, checklists and completion tracking that acts on user responses rather than only sending alerts.
- Developed a personal memory and semantic retrieval layer; architected multi-user isolation, asynchronous scheduling, retry / escalation workflows and real-time state updates.

Python | FastAPI | PostgreSQL | Next.js | JWT | LLMs | RAG | AI Agents | n8n | Docker

- Built an AI-enabled platform giving students, faculty and staff a unified interface for campus information and academic workflows (attendance, fees, syllabus, examinations, scholarships, support).
- Developed the FastAPI / PostgreSQL backend with authentication and structured academic models; designed an AI-assisted question-paper workflow driven by syllabus and assessment requirements.

EDUCATION

M.Sc. Computer Applications

2023 – 2026

Modern College of Arts, Science and Commerce (Autonomous), Pune – Savitribai Phule Pune University | CGPA 8.11 / 10 | First Class with Distinction

Bachelor of Computer Applications (BCA)

2019 – 2022

Savitribai Phule Pune University | Grade A+

CERTIFICATIONS

- Artificial Intelligence Fundamentals – IBM SkillsBuild (2026)
- AWS Solution Architect & Python Training – 3Ri Technologies Pvt. Ltd. (2023)
